

INDIVISIBLE

NE LAKE COUNTY IL

Our Shared Future Depends on Everyday Americans Choosing to Fight Back

We believe each of us has a role to play — in blue states, red states, and political battlegrounds across America. We believe MAGA will seek to divide and conquer us, isolating us one by one in an attempt to fracture our resolve. We believe standing together, Indivisible, is the only way to protect our families, our neighbors, and our democracy. And we believe that we will win.

The plan to get through the next 2 years and beyond

Our best chance to get through this era with some amount of democracy intact is to hang on until 2026 and win big in the midterms -- breaking Trump's hold on Congress and making sure election interferers and saboteurs aren't in charge of the 2028 election.

Indivisible NE Lake County also recognizes that the threats that we face will be around longer than the next election cycle, and we have work to do to build out the structure of our organization to get stronger in the future. We've boiled it down to five principles:

- 1. We will all throw in to say NO** to the Project 2025 agenda pushed by the White House and Congress. We'll stop what we can and pick strategic fights to drive national backlash to win in 2026.
- 2. We will play hardball** wherever we've got Democrats in local, city, or state office -- pushing them to block, delay, and challenge MAGA's attacks.
- 3. We will work to protect and win elections** -- defending against election interference in swing states and turning all that national backlash into an electoral majority coalition that delivers big wins in 2026.
- 4. We will organize to protect our communities under threat.** MAGA will hit hard, and we'll need to stand together.
- 5. We will build our capacity to operate under the increasing authoritarian creep.** We're not giving up on democracy, but we are not naive about what we face. We'll cover lessons learned about operating under increasingly authoritarian conditions.

We're inviting NE Lake County to start by gathering in community.

Indivisible NE Lake County offers a structured space for each of us to join with fellow activists to process, strengthen community, begin to ready ourselves for our future, and take action.
